

## **The Abundant Life Project**

### **Statement of Faith**

- 1.) We hereby affirm all tenets of The Apostles' Creed as foundational to our core beliefs as Christians.
- 2.) We believe in a triune God - Father, Son and Holy Spirit - our Creator, Redeemer, and Sustainer.
- 3.) We believe God created the universe and all that is in it, including humans, which God created in His image.
- 4.) Soon after God created human persons a separation occurred that broke the harmonious relationship God had created between Himself and women/men. This separation we call sin.
- 5.) We believe and have faith in the mystery of salvation in and through Jesus Christ.
- 6.) We believe that anyone, through faith in Jesus Christ, is forgiven, reconciled to God by grace and recreated as a new person of God.
- 7.) We believe God's redeeming love through Christ is realized in human life by both personal religious experience and through the community of believers called the Church (The Body of Christ).
- 8.) We believe that the Scriptures of the Bible in the Old and New Testaments serve as our primary authority in matters of faith.
- 9.) We acknowledge that the Church is in need of continual renewal and reform.
- 10.) We believe that God's Spirit working in history brought forth numerous Christian Churches with diverse denominational traditions. We agree to work together with them in mission and ministry to help those in need and to transform the culture around us.
